Prashanth Kumar Kadasi

Analytics Engineer | SQL, Python, Data Modeling & BI | AI-Ready Semantic Foundations

Hyderabad, Telangana, India · kprsnt@live.com · +91-9948311964 · **kprsnt.in** · **github.com/kprsnt2** · **huggingface.co/kprsnt** · **linkedin.com/in/prashanth-kumar-kadasi-b5281765**

SUMMARY

Data analyst and AI systems builder with 3+ years across analytics engineering, BI, and agentic AI. Ships well-tested data products end to end: ETL orchestration, data modeling, metric definitions, dashboards, and the semantic, metadata, and context layers that make data reliable for AI. Turns ambiguous business questions into documented, version-controlled, governed analytics.

EXPERIENCE

Black Piano — Data Analyst / AI Systems | Remote | Mar 2026 – Present

- Build and maintain analytics data products in SQL and Python (Pandas, NumPy, FastAPI) over BigQuery and SQLite, with data quality and validation built into each pipeline.
- Own reporting and automation: Looker Studio dashboards, Google Sheets automation, and client-ready reports for business stakeholders.
- Integrate AI tooling into day-to-day analytics workflows; maintain GitHub-based version control, code review, and documentation hygiene.

Pi Software Solutions (Pi - Datametrics) — Data Analyst | Remote | Mar 2023 – Feb 2026

- Delivered ETL orchestration, data modeling, and enterprise reporting; translated ambiguous requirements into durable, well-tested data products.
- Across analytics roles: 18 ETL pipelines, 15+ enterprise dashboards, 30+ client reports.

FEATURED PROJECTS (INDEPENDENT, SELF-DIRECTED)

JobAgents — job-matching data platform — live at job.kprsnt.in

- Sourced 7,533 jobs across 5,784 distinct roles and computed 22,647 match scores with 0 model calls; merged 1,864 duplicate postings; 274 matches surfaced above score threshold 65.
- Enforced data quality with 11 review invariants (0 failures), an anti-fabrication guard catching 8/8 seeded fabrications, and 12/12 outreach drafts passing review.

AI Eco — semantic and context layer for AI — 10 swarm agents

- Shipped 15+ MCP tools and 5 resources defining reusable, machine-readable context for AI systems; 83.4% fitness score.
- Living memory compaction bounded under 4,000 words for long-horizon reliability.

AgentSwarm — agent evaluation harness and audit ledger — live arena at agent.kprsnt.in

- 32 verified runs with 32/32 hash chains intact; 195/224 agent-written tests passing on independent re-run; 0 oracle violations across 1,254 tool calls; 22/25 numerical claims verified exact.

BugAgents — autonomous code-audit system — live at bug.kprsnt.in

- 3 submission-ready vulnerability reports (two High); 8/8 harness tests pass; 53 turns and 3,156 tool calls within a $50 budget cap.

SKILLS

- **Data & BI:** SQL, data modeling, data quality and validation, ETL orchestration, BigQuery, Looker Studio, SQLite, Google Sheets automation
- **Languages & Tooling:** Python (Pandas, NumPy, FastAPI, PyTorch), TypeScript, JavaScript, Node.js, Git, GitHub Actions, Docker, GCP
- **AI & LLM:** RAG, FastMCP (MCP), multi-agent swarms, agent evaluation harnesses, hash-chained audit ledgers, prompt engineering, multi-model A/B evaluation, LoRA/QLoRA fine-tuning, model evaluation and steerability
- **Governance & Reliability:** semantic layers, metric definitions, metadata, documentation, scope guardrails, budget enforcement, human-in-the-loop escalation

EDUCATION

M. Pharmacy (Pharmaceutical Analysis & QA), JNTUH — May 2012
